

Thanks to his hard work and knowledge of the dance floor, DJ Joy joined as one of the official resident Dj's at Cel Group in 2001, sharing the Dj booth with some of the most important Dj's who have been part of this Group.

To confirm his growing success, this producer presents a new finely worked track. "It's a Shame", recorded with his partners Ralf M & Jimmy Andrews, is a radio-oriented song, which is going to compete with the biggest stars of the moment, an absolutely incredible Hit track for clubs.

DJ Joy started his DJ carrier in 1998 and became famous thanks to energetic sets in the biggest clubs in Barcelona. He knows how to mix different music styles, only needs few seconds to switch from House to Progressive and becomes an active artist in the music scene.

He was a "Download Music Shop" record label member which helps fulfilling personal projects, he participated to big events as the "Rakatanga Party" with Erick Morillo (2007) and became resident in Ibiza "El Cel Ibiza". His incredible skills as a producer progressively made his popularity cross the borders. DJ Joy is able to reproduce every track just listening to it or to create any sound he's thinking about. This ability allows him to work on every style of music and to always surprise us.

"It's a Shame" is his first hit, that will be released as with his new Record Label DMS Recordings co-owner with Ralf M & Jimmy Andrews.

Believe it or not, but DJ Joy is also combining a student life (he's Computer Engineer), showing how motivated and hard working he is. His new productions will hopefully give him the success he deserves.
